No, the new ski lifts slow down to a near stop when getting seated and unseated. The beginner slopes have tow ropes and tread-tracks and are very easy to use. (you'll never leave the ground)!

Ski resorts offer slopes for all skill levels, and are easily identified with colored markers. Black diamonds are very steep, blue squares are intermediate, and green circles are easy. There is even a few "beginner slopes" which have a slight incline and are very smooth.

The ski resort offers great rates for "school groups" to go "night skiing". We generally ski/snowboard from 3-9PM. The slopes have lights!

A sign up sheet will be posted on the door across from the trophy case near the main gym. You must pay in full and Mr. Rex will sign you up. Remember, the bus only has so many seats, so its 1st come 1st serve. Checks should be made out to "RVHS Ski Club".
